SUBJECT: Seal Retainer Part Numbers

5PFR, 7PFR, 8PFR, 35PFR, 38PFR, 60PFR, 68PFR Plunger Pumps

To simplify the ordering of seal retainers, a single part number has been assigned to replace the existing two individual part numbers. These new single assembly part numbers include both the front and rear retainers. Check the data sheet for the specific model pump to confirm the correct part number.
